COMMISSION HEARS PETITION TO BOOST WATER RATES HERE ON DECEMBER 6TH

Alabama Water Company Files
Petition With Public
Service Body.

DECLARES MONEY LOST IN LOCAL OPERATIONS

Appraisal Property Requested in
Order Permanent Rates
May be Fixed.

The request of the Alabama Water Company for an increase in water charges in Albany and Decatur, filed with the Alabama Public Service Commission, will be heard by that body at its December term on the 6th of next month, Mayor James A. Nelson was advised today.

In the second paragraph of its request, the water company declares that during a "long period of time it has been compelled to give service to its patrons at Decatur and Albany at a loss; and that it is an imperative necessity, if the water company is to continue to serve the communities in which it is located, to have an increase in its revenues, and consequently to meet the emergencies, and pending an appraisal of its property, and the fixing of permanent rates for service at Decatur and Albany, it asks the commission to approve the rates set out in the attached schedule and in support of this petition, the petitioner files as Exhibit B to this petition a statement showing the losses which the company has sustained in the last 12 months in the operation of its property at Decatur and Albany."

Asks Appraisal

In the third paragraph of the petition the company says: "The petitioner further requests that in connection with the order approving the attached rates for the purpose of giving to the water company temporary relief from the losses which it has sustained, and is now sustaining, that an order be made for an appraisal of the property of petitioner in Albany and Decatur, and for an examination of its books and papers, records and accounts to the end of the coming in of the reports of auditors and appraisers and engineers which may be appointed by your honorable body, an order be made fixing the permanent rates to be charged by the petitioner for services to its patrons and consumers in the said cities of Albany and Decatur."

The following rates are asked:

For two openings or less in a house having four rooms, or less, per month \$6.00; for four openings or less in a house having four rooms, or less and not more than eight rooms per month \$2.00; for five openings or less in a house having more than eight rooms per month \$5.00 for five openings or more in a house of any size, per month \$2.50.

The above are minimum rates, the petition points out, and the consumer is entitled to use water to the extent of the payment at the rate of 50 cents per thousand gallons, all water consumed in excess of 5000 gallons per month shall be paid for at meter rates.

(International News Service)
WASHINGTON, Nov. 22.—Secretary of the Navy Daniels was named as defendant today in a suit filed in the District Supreme Court by the Western Union Telegraph Company, which asked an injunction to prevent the secretary from interfering with the construction of a cable line between Miami and Miami Beach, Fla. The telegraph company declares that the line is in the nature of a replacement of the existing line and is distinct from the so-called Barbados cable.

WEEK-END LIQUOR NETS CATCH RICH HAUL OVER SUNDAY

Week-end liquor nets, thrown out by revenue men and the sheriff's force, caught rich hauls in this section, according to reports tabulated at the sheriff's office this morning.

Revenue Officer Howell and Sheriff May captured an outfit, about two miles down the river in Limestone county, described as one of the most complete stills captured here in several months. A large quantity of mash was taken, together with a well pump, said to have been installed for furnishing water to the outfit.

En route to the scene a negro was arrested, charged with violation of the prohib laws and one gallon of liquor was seized.

Revenue Agents Huckaba and Allison made two raids in the vicinity of Hartselle Sunday afternoon and in addition captured an automobile said to have contained several gallons of liquor. One arrest was made.

Col. T. T. Ashford, who is now established in his country home, "The Plantation," in South Limestone for the hunting and fishing season, has as his guests the past week Miss Elisabeth Hill, her brother, James Hill, Miss Anna Kimball Bartlett of Mooresville and J. W. Angell of Birmingham.

Bird and duck shooting were on the program, but "possum" hunting, tree climbing, bon fires, "haunt" stories, og climbing, scrambling through the woods and midnight suppers were the enjoyable features of the opening of the season's outdoor sport at "The Plantation."

WOMEN WILL GIVE THANKS FOR AWARD OF THE BALLOT

Thursday Will be Observed, Says Proclamation
of Voting League.

Thanks will be returned by the women of Albany and Decatur, along with the rest of the nation Thursday, for the awarding of the ballot to the fair sex, according to a proclamation issued by the National American Woman Suffrage Association, and made public today by the officials of the League of Women Voters.

"The political freedom the Pilgrims sought did not come to women until 300 years later," the proclamation says. "Now the women of America have, after a long voyage and many storms, arrived at their port of freedom."

"We thank again the 65th and 66th Congresses of the United States which stood staunch against fierce opposition and finally brought the baroque of liberty to port. We thank the President of the United States for his unprecedented act in personally bringing the amendment before Congress. We thank those states which cleared the way for the amendment by prompt ratification. We thank the governors who called special sessions, the hun-

WILL DRAFT APPEAL TO FIND A MEDIATOR

Delegates Take the First Formal
Step to Interpret Ar-
ticle Ten.

(International News Service)
GENEVA, Nov. 22.—The first formal effort to interpret article ten of the League of Nations covenant, in order to clear all doubt in the United States as to the responsibility of member nations, was made by H. A. L. Fisher of the British delegation, at a secret meeting of the committee on application for membership, it was learned today.

The League of Nations assembly concentrated its attention toward relief for Armenia and the establishing of peace between Armenia and Turkey today. The assembly instructed the council to meet this afternoon and draft an appeal to "some nation" that will intervene to negotiate peace between the Armenians and the Turks. The delegates were deeply interested in press reports that the peace negotiations between Soviet Russia and Poland have been halted at Riga.

CHARLIE NAMIE ASSESSED FINE AND A SENTENCE

Charles Namie, whose numerous trials in connection with the death of a negro named Clarke several months ago, have been a feature of court annals in Morgan county, was convicted of manslaughter in the second degree in the circuit court late Saturday and assessed a fine of \$250 and a six months' sentence. An appeal bond was filed and the case will be taken to the higher court.

dreds of legislators who responded to these calls, who endured journeys, resisted opposition, repudiated bribery, defeated corruption, for the sake of justice to the women of the country.

"We thank all the political parties for their final acceptance of the principle that just government rests upon the consent of the governed. We thank the minor parties for their adoption of this principle before the major parties had awakened to its application. But we also thank the two major parties which have since 1915 increasingly accepted woman suffrage as a political issue to be maintained, and who furthered the cause of ratification in spite of reactionary elements in their midst.

"Finally, we give thanks that in spite of all obstacles the women of the United States on November 2 were invested with full political liberty. With new self-respect and new hope for the future, millions of them went to the polls and participated in the great presidential election."

METHODIST PASTOR PREACHES TO LARGE CONGREGATION BOTH SERVICES SUNDAY

Westminster People Unite in
Welcoming the New
Leader Here.

DR. STURDIVANT MAKES A DEEP IMPRESSION

Was Former Pastor of the First
Methodist Church at
Florence.

Dr. J. F. Sturdivant, for four years pastor of the First Methodist church of Florence, preached his initial sermon as pastor of the Central Methodist church yesterday morning to a large congregation. At night a still larger congregation was present on account of the Westminster church suspending their services as a special mark of respect to Dr. Sturdivant, many of this congregation being present, including the pastor, Dr. L. F. Goodwin.

The sermon of last night dealt with the character and attainments of Jacob, who after his conversion from a tricky way of living, was named Israel, by the direct command of God.

The morning discourse was based on the Scripture reference to the famous band commanded by Gideon, which reads as follows: "And they stood every man in his place, round about the camp and all the hosts ran, cried and fled." Preceding the sermon proper, Dr. Sturdivant made an interesting reminiscent talk on relations he had sustained to Methodism prior to receiving the Bishop's appointment to come to Albany. In this connection he told a humorous story showing how disregarding he was of the A. B. A. M., Ph D. and D. D. degrees he holds. He said that because many people were calling him "Doctor" on a railway train, he was called to administer to the ills of a sick passenger, whereupon Dr. Sturdivant exclaimed: "I am not a sure-enough doctor."

A Masterful Man

In his sermons Dr. Sturdivant appeared to be a man of masterful purpose and unusual ability. Physically he stands well over six feet, and is large of body proportionately. The only man in Albany who approaches him in size is former Sheriff James A. Foreman. The Doctor's disposition not to engage in epithets and abuse of "enemy people" was in evidence when he came to describe the leaders of the enemies of Israel who had cried and fled. The speaker dismissed those leaders by saying "the other side had their appropriate leaders." For those leaders on the "side of right" the speaker delivered a glowing tribute.

In speaking of Gideon's demand on God, that He wet the fleece of wool, as an evidence that God was acting in good faith, the speaker taught that no one ought to be less anxious than God to show his fellow men that he sought to act in good faith. The Doctor said that the little strategy used by Gideon to confound the vast enemy hosts of the Midianites, was based on co-operation and obedience, and he covered the whole battle in these terse words: "The three hundred stood as directed round about the camp. Every fellow blew his trumpet at a given signal and displayed his light. The enemy was utterly dismayed and in their route fell upon their own selves with the deadly weapons that had been intended to destroy God's people. It doesn't take a vast crowd to do a great work," continued the speaker with emphasis. And with still greater emphasis Dr. Sturdivant said: "Gideon's band was anxious for the fight; they were anxious to attack the enemy."

"Unity" was declared to be the first thing in a church, if it hoped to do a great work. Unity was described as a state of being just like the other fellow in purpose.

"Obedience to authority" was named as another prerequisite to successful Christian living and accomplishment. "I have a fearful responsibility on me as your leader," said the speaker. "I am responsible to the conference next year and also at some time before the bar of God. I came to serve you, and we must all serve the common purpose of continuing and enlarging the kingdom of God."

The speaker reminded his congregation that Sunday nights should be given over to evangelistic effort. He said that he came to the Florence church when its membership was 512.

BIG SUBSCRIPTION CAMPAIGN LAUNCHED

New Model Buick Touring Car and Ford Sedan Heads List of Big Awards in Interesting Work—Several Thousands of Dollars in Prizes Free to Those Who Enter at Once.

With a more stupendous prize list than has ever been offered heretofore in a similar undertaking, The Albany-Decatur Daily today makes formal announcement of the Automobile Prize Campaign in which thousands of dollars in touring cars of the latest models and other prizes will be given away. There is a double page announcement in today's paper, which outlines the big enterprise in detail. The Albany-Decatur Daily wishes to increase its already wide circulation to even greater proportions and is willing to pay its friends and readers handsomely for helping introduce it in turn to their friends and neighbors. The Daily's generous offer far surpasses anything of its kind ever made hereabouts, and its gigantic prize list includes the most attractive and valuable prizes one could think of.

The plan adopted by The Daily is a novel one. It could reach hundreds of new homes by employing scores of solicitors to cover this section, but it would take quite a long time to cover the territory thoroughly. In inaugurating the Automobile Campaign, The Albany-Decatur Daily has adopted a better plan—a quicker method—and also gives its friends an opportunity to earn big rewards during their spare time. Our big Automobile Campaign will make a lot more noise and create interest and fun—there is nothing like having some fun along with business.

In a nutshell, here is the proposition, condensed:

The prizes are to be given to folks competing in the Automobile Prize Campaign. A certain number of credits will be given for subscriptions, and those persons who secure the greatest number of credits will be awarded the main prizes according to their respective standings when the campaign ends. Credits may be secured by clipping the coupons from the regular issues of The Albany-Decatur Daily. These coupons will be published from day to day and will be allowed for the number printed on them. A quicker way of securing credits is by getting paid-in-advance subscriptions to The Albany-Decatur Daily. The schedule published elsewhere in this issue shows just how many will be allowed upon each subscription. Subscription books and all

information necessary for outlining a successful campaign may be had by calling in person or writing the Automobile Prize Campaign Department, Albany-Decatur Daily.

Something New

The Automobile Prize Campaign plan is something new. The race will be interesting from the start and highly remunerative, lasting seven weeks from the first announcement of the contestants' names. Spare time is all that is necessary for one to devote to securing subscriptions and to compete successfully, as sufficient time is given in order for one to see all one's friends and acquaintances.

The Thing to Do

To compete for the prizes all that is necessary to do is to clip out the nomination coupon and send or bring it to the Automobile Campaign headquarters. At the end of the campaign the ones having the greatest number of credits will be awarded the prizes according to the rules governing their distribution. It is needless to add that those persons who grasp the opportunity at once and begin an active campaign immediately will enjoy a tremendous advantage over those who hesitate. The mill does not grind with the water that has passed, and those persons who start immediately will not suffer the handicap of having to make up for lost time.

Everybody Wins

An especially attractive feature of the big Automobile Prize Campaign is that all will be paid handsomely for the results they obtain. A cash commission of 10 per cent will be paid to those persons who are not awarded one of the regular prizes upon every dollar's worth of new subscriptions they turn in. Thus the campaign is a sure thing for the workers right from the beginning, and the reward depends entirely upon the efforts put forth.

Turn to the double-page announcement in this issue now, while the thought is fresh in your mind, and read the proposition in detail. A complete list of the many prizes offered is given. The grand prizes are listed in this issue. Send in the nomination coupon NOW and FULL information as to how to proceed in winning one of the big awards will be sent you post-haste.

GREAT BRITAIN IS WARNED TO KEEP HANDS OFF BATUM

(International News Service)
MOSCOW, Nov. 18, by wireless to Berlin, Nov. 22.—George Tchitcherine, the people's commissar for foreign affairs in the Soviet government, today addressed a sharp note to the British government to Earl Curzon, the British foreign secretary, warning Great Britain not to occupy Batum on the Black Sea. The note says that information has reached the Soviet government that the British intend to occupy Batum and that the Soviet government wishes to convey warning in advance that it will regard such an act as one of aggression against the new state of Azerbaijan. If Great Britain attempts to occupy Batum, continued the note, Soviet Russia will take "all necessary steps."

PRESIDENT-ELECT AND PARTY 200 MILES FROM GOAL

(International News Service)
ABOARD THE U. S. S. PARISMENA, Nov. 22.—President-elect Harding and his party today were sailing the tropical seas of the Spanish Main. The ship's log showed there remained 200 miles to go before the Panama Canal is reached. The Parismena was due to dock Tuesday morning. Senator Harding has declined an invitation to be the guest of Brigadier-General Chester Harding, governor of the Panama Canal Zone, during his visit, but it is believed he may receive a delegation of Central American financiers who desire to confer about the exchange rate situation.

The president-elect would not comment on a wireless message stating President Wilson had failed to send an American representative to be an observer at the League of Nations meeting at Geneva, but indicated his pleasure at the apparent willingness of Washington to leave the league situation to the next administration.

Bank Is Robbed of a Large Sum

PITTSBURGH, Pa., Nov. 22.—Three armed bandits entered the Pennsylvania Avenue branch of the Metropolitan Trust Company a few minutes before noon today, held up the cashier and two clerks, grabbed a number of packages of money lying on the counter and then escaped in an automobile. Bank officials have not yet announced the amount of money taken.

MRS. SHACKELFORD HONORS
MRS. HARRIS OF CHICAGO

Mrs. David Harris of Chicago, the house guest of Mrs. J. D. Jervis, was the inspiration for a beautifully planned reception given on Saturday, last by Mrs. W. B. Shackelford, at her home, 402 Ferry street. For this affair the entire reception suite of the lovely Shackelford home was tastefully decorated, the colors, rose and white, which had been chosen for the afternoon, were prettily carried out in reception hall library, living and dining rooms, Columbia roses and potted plants being used effectively. Rose light bulbs cast a soft glow over the entire scene.

The guests were welcomed on their arrival by Mesdames H. D. Greer and Rufus Pearson, both gowned in blue tulle, and were introduced to the receiving line, composed of Mrs. W. B. Shackelford, who wore black georgette handsomely embroidered in gun metal and jet beads.

Mrs. David Harris, whose gown was an embroidered black georgette, Mrs. J. D. Jervis, who was also gowned in black georgette, Mrs. E. W. Godbey, who wore a navy costume featuring the beaded trimming, and Mrs. Ralph Cowart, who wore an autumn brown satin, Mrs. Seneca Burr and Mrs. Vera Austelle invited the guests into the library where they were served delightful punch from a rose and fern imbedded punch bowl by Mrs. F. H. Pointer and Miss Helen Wallace. In the dining room where the white covered table was centered with a silver basket of Columbia roses and silver vases of the same graceful blossoms were arranged on mantel and sideboard, Mesdames J. B. Cassels, W. T. Lowe, Walter Markstein, and Susie Bounds of Cullman served salted nuts, crystallized fruits and mints with an ice course, which struck an additional note in the color motif.

Between the hours of three and five about one hundred and fifty called. Mrs. Harris leaves Tuesday for her home in Chicago.

MRS. RICHARD HARRIS
HOSTESS

Mrs. Richard Harris was hostess to the Friday Luncheon Club Friday at her home in Town Creek. After an elaborately served six-course luncheon the afternoon was spent at the card tables playing Bridge. Mrs. Jack Smiley was the fortunate contestant and was presented a pair of mahogany candle sticks. Mesdames E. W. Lacey, Jack Smiley, J. L. Robinson, H. Odum, Henry Zeltler of Moorsville, C. W. Hudson and Miss Helen Wallace motored to Town Creek for this luncheon. Mrs. E. W. Lacey will be the next hostess to this club.

Mr. and Mrs. J. D. McNabb are the guests of friends here after an extended stay in Florida.

Mrs. Louis A. Neill returned Saturday morning from Montgomery, where she attended the Alabama Federation of Women's Clubs, of which she is state secretary. While in Montgomery Mrs. Neill was the recipient of much social attention.

Mrs. Susie Bounds of Cullman is visiting her sister, Mrs. W. B. Shackelford.

Mrs. J. D. Jervis will leave Tuesday for Chicago, where she will spend the winter months with Mrs. David Harris.

Miss Annie Guss Murphey, who has been visiting in Cincinnati and other places, will return to Cincinnati for Thanksgiving.

Miss Mary Penn Tompson and Miss Nell Roche will arrive Wednesday from Nashville to be the house guest of Dr. and Mrs. M. W. Murray.

Mr. and Mrs. L. C. Mayes were called to Prospect, Tenn., yesterday on account of the death of Mr. Mayes' father.

Mrs. J. D. Jeffries has returned from Montgomery, where she went as a delegate from the Music Study Club to the Alabama Federation of Women's Clubs, held in that city.

Jessie H. Hay of Macon, Ga., will arrive Tuesday to be the guest of his niece, Mrs. Robert Daniel.

CARD OF THANKS

We wish to thank our many friends for their kindness and help shown us during the recent illness and death of our darling baby. Also for the use of care and beautiful flowers. May God in His goodness bless each and every one of them.

ALMOST INVALID FOR YEARS
DRECO BROUGHT HAPPINESS

Stomach Trouble, Constipation, Pain in the Back and Limbs, Nervousness and Dizzy Spells Made Life Miserable.

Now Declares That the Root and Her Remedy Dreco Has Given Relief.

"My wife has practically been an invalid for thirty years," are the words of that well known and highly respected citizen, Mr. W. J. Feyason, of 631 Locust street, Gadsden, Ala.

"She kept going down hill all the time, losing strength until she became weak, pale and very nervous and excitable. She lost her appetite and what food she did eat didn't seem to nourish her nor give any strength. It often fermented and caused her stomach to fill up with gas. Her bowels were very constipated and she was forced to take some kind of medicine most every night for them. Her breath became foul and she hardly knew what a good night's rest was

like. Dizzy spells often struck her and she would almost go blind from them.

"I've spent lots of money buying medicine for her and for doctor bills but nothing ever gave more than temporary relief. I've always put a lot of faith in the old-time root and herb medicines so when I read about Dreco I went right away and got her a bottle. It seemed to go right to the bottom of her troubles and now she is like a different person, both in looks and feelings. Her color has returned, eyes cleared up, and I've never seen anyone gain strength so fast. She gets around now like she used to when a young woman. Her appetite is huge and what's more, the food agrees with her, never has gas and hasn't had a dizzy spell since she started on Dreco. We surely recommend Dreco."

All druggists now sell Dreco and it is being especially introduced in Albany by Albany Drug Co.; in Decatur by Hilda Drug Co.—Adv.

"Didn't Rest Well"

Prominent Georgia Lady Suffered from Faint Spells
and Sleeplessness—Relieved by Ziron.

PEOPLE who get to feeling weak every now and then, and who do not seem to get the proper refreshment from rest, sleep and recreation, need a tonic to help their blood revitalize and build up their system. For this, you will find Ziron Iron Tonic very valuable, as the testimony of thousands already has proved. Mrs. J. W. Dysart, lady of a prominent Georgia family residing near Cartersville, says: "I didn't rest well some nights. I would be just as tired when I got up in the morning as when I went to bed. I would get weak, and have kind of faint spells—at times hardly able to do my housework. 'I heard of Ziron, and felt maybe a tonic would help me. I thought it would at least strengthen me. 'I believe Ziron has done me good. I feel better. I am glad to recommend it as a good tonic.' Try Ziron. Our money-back guarantee protects you. At your druggist's."

speaker said that he had held no pro-

ROBBERS ESCAPE
(International News Service)
CHATTANOOGA, Tenn., Nov. 22.—
Detectives and police are today still
without a clue as to the identity of the
two masked men who, Saturday night,
robbed the local Morris bank of over
\$1000 after marching the teller and
his assistant into the vault at the
point of a revolver.

A Financial Wreck.
Mumbleton tottered into the room
like a man reeling under the effects
of some terrible mental blow. His
wife looked at him aghast. "What
is it?" she asked, in trembling accents.
"It was not my fault," he murmured
incoherently. "We are penniless."
"Penniless!" she repeated, in a half-
dazed way. "Oh, tell me, have you
been speculating on that dreadful
stock exchange? Tell me you have
done nothing to tarnish your honor."
"Nothing—nothing!" he replied. "Oh,
thank goodness for that!" she cried.
"Now I can brave anything. Where
has your money gone?" The wretched
man placed his arm around her and
gasped out: "I have paid the gas
bill."

Getting Action.
A doctor received a note asking him
to go at once to a case of smallpox,
but to his surprise, on arriving at the
patient's bedside he found that it
was merely a case of rheumatism.
"But this is very plainly not small-
pox," he said.
"Well, doctor," replied the man, as
he shuffled one foot over the other, "to
tell you the truth, we knew it was
rheumatism, but nobody in the house
could spell the word, and we thought
smallpox would do just as well until
you came, and probably bring you
quicker."

REPUBLICANS MAY HAVE PRIMARY

The strength shown by the Republicans in the general elections in Alabama has occasioned much surprise in Democratic ranks throughout the state. The official canvass reveals the fact that the Republicans may now hold a primary of their own, at the expense of the state, to nominate candidates of their own choosing.

Entirely too many Democrats, pointing with pride at the wide difference in the total Democratic and Republican votes polled in this state, are serenely confident that Alabama is safely Democratic for ever more. The Daily is not an alarmist and admits that it sees no immediate danger of Alabama swinging into the Republican column, particularly in presidential years, but it is well for Democrats to be on their guard.

The holding of primaries in Alabama will gather additional strength to the Republican cause, inasmuch as many independent voters, normally voting in the Democratic primaries because they were the only primaries, now will participate in the nominating races in which they are most interested.

The Anniston Star, in a timely editorial, has this to say of the situation:

The Republican electoral ticket had majorities in ten counties, the canvass shows, and in several counties Republican candidates for county offices were elected. In addition to gaining the right to hold a state primary at the state's expense, the Republican organization, by the heavy increase in the vote in the state, will be able to demand a larger share of political "pie" than it has in other years been able to expect.

Democrats, warned by the Republican gains can prevent its recurrence by strengthening the party defense in the counties where it is shown to be weak, and can encourage a more strict observance of the party pledge given in primaries, a pledge that appears to have been ignored by a number of Democratic voters.

One thing Democrats need to do more than they have been doing, and that is to go to the polls and vote. There is too much staying at home among Democrats. Luke-warmness of some Democrats encourages others to harken to Republican arguments, for they think where Republicans are active and Democrats inactive, there must be some merit in the Republican claim.

Alabama is safely Democratic and always will be, but it is not a good showing for Alabamians to permit Republicans to crease their vote in the state so greatly. It evidences the lack of Democratic interest and enthusiasm, and before another election arrives, this tendency among Democrats must be overcome.

OUR LANGUAGE

The average student, beginning the study of the mysteries of the proper relation of adverbs, nouns, pronouns, articles and adjectives of foreign languages, often wonders why the poor alien doesn't adopt a simple language similar to ours. But reverse the situation for a moment and imagine ourselves, born abroad and hearing only the native language of that country for a time, and, then attempting to master English! No longer would we smile at the brave attempts made by some of our new Americans to speak the language of the country of their adoption.

That so many immigrants are able to pick up sufficient knowledge of our language to be able to make an attempt to speak it within a short time speaks well for their intelligence.

An illustration of the difficulties of our language is furnished by the Pittsburgh Chronicle:

A flock of ships is called a fleet.
 A fleet of sheep is called a flock.
 A flock of girls is called a bevy.
 A bevy of wolves is called a pack.
 A pack of thieves is called a gang.
 A gang of angels is called a host.
 A host of porpoise is called a shoal.
 A shoal of buffaloes is called a herd.
 A herd of children is called a troop.
 A troop of partridges is called a covey.
 A covey of beauties is called a galaxy.
 A galaxy of ruffians is called a horde.
 A horde of rubbish is called a heap.
 A heap of oxen is called a drove.
 A drove of blackguards is called a mob.
 A mob of whales is called a school.
 A school of worshippers is called a congregation.

LEE A STATESMAN AS WELL AS A GENERAL

Now that America faces a moral and spiritual crisis in the bankruptcy of her leadership, she may well turn for inspiration to one whose sanity and wisdom entitles him to rank among our great constructive statesmen. The world knows Robert E. Lee as the consummate general and soul of the "Lost Cause." It does not recognize him as the statesman who led the South through the most trying and difficult period of her history. This last and noblest phase of his life constitutes one of the most inspiring chapters of our nation's

life.

During the period of recuperation, Lee held no official position. His influence was purely moral and was exercised by example and persuasion only. That he was all powerful is testified by General Grant, who wrote, "All the people except a few political leaders in the South will accept whatever he does as right and will be guided by his example." Lee used his influence wisely. When some others suggested that the Southern armies be dispersed and carry on a guerilla warfare he refused with solemn indignation. "You must remember we are a Christian people. For us a Christian people there is but one course to pursue. We must accept the situation; these men must go home and plant a crop and we must proceed to build up our country on a new basis." These words are the keynote of the last chapter of his life.

Gradually the sons and younger friends of his veterans gathered about him from all over the South. They revered and idolized him; he gave to them warmly and freely. It was an ideal relationship. In many ways this the happiest period of his life. Heretofore military activities had kept him from home and friends. Now he enjoyed both and was doing a work rich in its relations and significance. He rode frequently upon his old war horse, Traveler, about the roads and byways of Lexington, often accompanied by children who quickly trusted and loved him.—The Grinnell Review for November.

LOYD GEORGE STILL SURVIVES

With the fall of Venizelos, in Greece, Lloyd George and his cabinet remain as the only governmental survivors of the great war. France, Italy, Belgium, Hungary, Serbia and Portugal have made changes since the armistice was signed. America gave the Republican candidate one of the greatest majorities ever. Germany has had several in her government, but Lloyd George retains his hold on the English people, despite the Egyptian troubles, the Irish home rule question and the industrial unrest in England. Few of the government leaders have had more to disconcert them than has Lloyd George, yet he survives them all. There must be a bit of superman in the Welchman.

SHOW DISTURBERS

The Albany-Decatur Daily carried a timely editorial criticising citizens of that city for leaving the theatre before the performance was over which was reproduced in yesterday's Daily News. Do you know I had been thinking like that, but the folks who do that way here are friends of mine and I didn't want to hurt their feelings? But a fellow's friends tell him of his faults. It's an awful ugly habit. It isn't polite. It isn't treating the people who want to see the entire show with proper courtesy. The other night the crowd at the Princess left in a moment, in the twinkling of an eye. It looked like they were running from a fire or had gotten into a bumble bee's nest. They didn't give the people who had enjoyed and appreciated the show any chance to show their appreciation. They were going for the doors like a drove of sheep, drowning out the voices of the performers. Say, the next time you go to a show eat something before you start. The next good show we have let's see it thru. There is no prize offered for the one who gets out first. You are going to get fooled some time, thinking the show is about over and miss the last act.—Eli Haggard in The Florence Daily News.

THE PASSING OF THE LONE HAND

Of vital significance to Americans is a drama being enacted in the conference rooms of Europe by the diplomatic cast of the nations. America, sitting in the top balcony, may find it hard to follow all the lines, but she can see that those seasoned actors, France and England, are no longer walking arm in arm. They seem to be engaged in an argument, albeit a friendly one.

That argument has as its mainspring a motive that has been powerful in Europe since the days of Rome and Carthage. That motive is the desire of each individual nation to prevent any other single nation from becoming predominant. It was that motive which banded England, France, Russia and Italy together against Germany in 1914, which later brought America into the World War.

England does not conceal her reluctance to give France a free military hand in Europe. She looks askance at French influence in Poland and Czechoslovakia. Nor does England wish to see Germany wholly powerless. France, on her part, conjures up the possibility of the greatest naval power of the world also becoming the world's greatest military power.

The greatest hope of a League of Nations—no matter what kind of an association eventually is adopted—is that it will render mutual mistrust in Europe impossible by destroying the incentive or hope of any nation to embark on a solitary career of power.—American Legion Weekly.

IT IS A QUESTION!

Don't know which is worse, office seekers or a Texas "nother." Mr. Harding went to the Lone Star State to fish and to escape the hungry republican hunters, but ran into something a little bit worse.—Colbert County Reporter.

There is one thing that need never be discussed—if a woman, preferably one who is also a wife, is beaten in a political argument, she will never admit it.

Fighting the Boche was, at least, more interesting, than having to contend in these later days with so much "bosh."

About every body seems to have been for General Wrangel, except the people who were close enough to have aided his cause.

The present assembly of the League of Nations has sent a message of sympathy to the President, on account of his continued illness. Will the United States Senate be as courteous and considerate. It will not. Still the President has not told the League as many unpleasant truths as he did the Senate.

The merchants are advised by the Magazine "Hides and Leather" to reduce on the price of shoes. The latter interests have already got "their."

Just In Passing

IN EARLY DAYS

"When I was a cub reported on The Cincinnati Post," said Sig. G. Bauer, who covered the Baptist state convention, for The Birmingham News, "the prohibitionists were not prospering with their cause like they are now. Of course, my paper (as were nearly all the dailies of that day), was out and out for open saloons. But I knew such men as Percy Baker, and most of the early promoters of prohibition in Ohio in those days and I believed in their cause. I was about the only reporter who would get stories into print telling about the work of the Anti-Saloon League. I remember well that those who ran the Anti-Saloon League paper in those days, sometimes had to pawn their jewelry and watches in order to get the money to pay off their printers. Now it is all changed. The anti-saloon press in Ohio is the strong one, and those who lean toward whiskey and near beer are very weak indeed. When, I was recently reporting speeches of Dr. Baker in this state he called attention to my presence, made extended remarks on our relations when the cause of prohibition was unpopular, and contrasted my actions in getting all the copy in I could for his cause, to that of the other reporters who never thought of such a thing."

POWER OF RIVER

"If people but knew the potentiality of the great river that flows just at our doors, they would be running over each other making subscriptions to the River Improvement Association," said John W. Knight. "As good an illustration as I know to show what the river can be made to accomplish in the way of cheap freight rates, is the following: In 1899 J. T. Jones, and myself represented a large number of cotton shippers. I went to Cincinnati, and made an agreement with a large company to move 10,000 bales of cotton from the river wharf here, and place them in Cincinnati. The railroad rate then was 87 cents a hundred. I got a rate of 65 cents, by the water route. Well, to make a long story short, I had not more than gotten home from Cincinnati when, I was informed, that the railroads entering here, had secured an injunction, so to speak, against my trade with the large people, until they could see us. The upshot of the whole matter was that the railroads cut their rate to Cincinnati, to 65 cents, so of course, as it was quicker, we sent our 10,000 bales of cotton overland to Cincinnati. When we have the Muscle Shoals dams up, we can dictate the freight rates, instead of having them dictated to us," concluded Mr. Knight.

NEXT THING

"The next good thing for your cities to do," said Dr. A. J. Dickinson, state enlistment agent for the anti-venereal disease movement, "is for both towns to join in a strong association, elect officers and get busy against venereal diseases. The proposed clinic needs your earnest support. More young valuable life can be saved, by preventative methods, than by all we may say about the evil effects of disease. I mean, when I use the word methods, that when actual demonstrations are made before the very eyes of people it has much more effect than mere lectures or good advice," said the Doctor.

HOW DOCTORS TREAT COLDS AND THE FLU

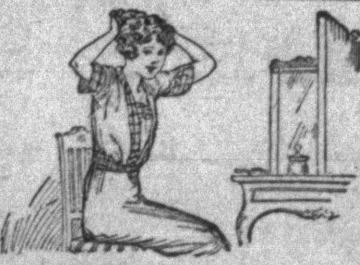

First Step in Treatment Is a Brisk Purgative With Calotabs, the Purified and Refined Calomel Tablets That Are Nauseless, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess calomel tablet called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One Calotab on the tongue at bed time, with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.—(Adv.)

Poor Gondolas.
 Business had prospered with Mr. Cashbalks. So much so that his wife found herself established in a large house with grounds—nothing so low as a garden!
 One morning Mrs. Cashbalks sent for the gardener, of whom she was very proud.
 "I've had a letter this morning from Mr. Cashbalks, John," she informed the man. "He is traveling in Italy, and says that while in Venice he bought two gondolas for the lake, which should arrive this week. So you must go to the store at once and get some food for them and build them a nest or something. I'm sure the poor things will be tired and hungry by the time they get here!"—Houston Post.

Poles Grateful to America.
 Polish papers in the United States have recently published a resolution unanimously passed by the Polish diet expressing thanks "for the memory of future generations" to seven American organizations who "in the name of brotherly love have brought relief to the unfortunate without flinching before danger and difficulties." The seven organizations mentioned are the American Red Cross, American Relief Administration, Young Women's Christian association, Young Men's Christian association, Fund for European Children, American Commission for Fighting Typhoid and the Joint Distribution committee.

Healthy Young Womanhood

THE tendency to constipation begins with girls as they approach maturity, and that is the very time the mother should watch that the important function of daily elimination is regular and normal. Many thousands of mothers who have daughters will tell you they give only Dr. Caldwell's Syrup Pepsin. A teaspoonful is sufficient to relieve constipation and its commoner symptoms such as headache, bad breath, biliousness, loss of appetite and restlessness.

Syrup Pepsin is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics, and a sixty-cent bottle is enough for many months. Eight million bottles were bought at drug stores last year, the largest sale of the kind in the world. Dr. Caldwell's Syrup Pepsin has been on the market thirty years and there must be genuine merit behind it to develop no large and steady sale. Buy a bottle today and you will quickly see why it is so popular.

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the two-minute cold and cough reliver, authoritatively guaranteed by the laboratories; tested, approved, and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—(Adv.)

PRETTY ADDITION TO ROOM

Wandering Jew or Some Other Vine in Bowl of Water is a Splendid Idea.

If you want to keep a large bowl or punful of water near a steam radiator or hot-air register to counteract the excessive dryness of the heat, try filling the bowl with the delicate green vine called Wandering Jew and place it on a table near a steam radiator, renewing the water frequently.

This vine will grow and spread beautifully in water and has the added advantage of not needing daily sun. It will do just as well in a dark corner, if that is where your radiator happens to be, with only an occasional visit to a sunny window, and at the same time it will light up that dark corner wonderfully. A few sprigs of the vine will spread rapidly and luxuriantly and will do away with the useless look that a plain bowlful of water always has. In addition to their decorative value, water bulbs are also a useful means of increasing humidity, but always choose the odorless ones.

Vessel for Submarine Research.

Details of a new submarine intended for ocean research work were given to the members of the Academy of Science by M. Laubeuf, its inventor, says a Paris correspondent of the London Express. Its length is 62 feet, its diameter 7 feet 6 inches, and it has a displacement of 50 tons. It can descend to a depth of 330 feet. Its accumulators and electric motors give it a speed of six knots on the surface and nearly five knots under water. It is equipped with portholes recalling those of the famous Nautilus created by Jules Verne. The inventor claims that the vessel can be used for various operations, such as the location of wrecks, the collection of marine specimens, soundings, the study of ocean currents, or sponge fishing. The cost of construction, which was estimated when the plans were first drawn up in 1907 at \$38,000, is now placed at \$120,000.

Flowers of the tea plant somewhat resemble those of the strawberry plant.

Hair Used in Building Churches.

At one time the Japanese made use of human hair in building churches. It was the custom for church-going people to give some of their hair as a free-will offering when a temple was being built. Such a structure at Tokyo had the beams and rafters held in place by one of these human hair cables. Placed end on end this human hair rope measured 4,528 feet long and seven inches in diameter, no fewer than 350,000 persons contributing before sufficient quantity was obtained.

MUSIC BIG AID TO MORALE

Engineer in Charge of Construction Work on Big Dam Has Found Idea Pays Well.

Music as an aid to morale is having a successful test among laborers employed on the construction of the million-dollar Barrett dam near San Diego, Cal., according to H. N. Savage, hydraulic engineer in charge of the construction of the dam. A special recreation hall, provided with a player-piano, phonograph, a steel guitar and other instruments, was built by Mr. Savage for the use of the workers.

"It has long been the custom on big projects to have clubs for the higher paid, technical men, but the common laboring class has been left to seek its own pleasure," said Mr. Savage. "But on this job," he continued, "I have looked after the latter class and let the 'higher ups' take care of themselves. It may be a reversal of things, but I am finding it working out in fine shape, for our labor turnover, even though we are located 43 miles from the city, is remarkably small, and I believe that music and the other entertainments which we furnish the men keep them contented on the job."

About 75 per cent of the men on the Barrett dam work are of Mexican origin, although American citizens, and they are very fond of music.

Pure, Rich Blood Will Keep Your Body Vigorous and Healthy

When impurities creep into your blood the first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown.

Nearly everybody needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse out all impurities about twice a year. It is an excellent idea to take this

precaution to keep the system in a vigorous condition so as to more easily resist disease to which every one is subject. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

THE VICTORY OF GOOD VALUE

Dodge Brothers' great works are operating at full capacity every day.

It is good to be able to say to you that Dodge Brothers' implicit faith in the good will that grows out of good value is being vindicated by everything that is going on in their plants today.

You know well that Dodge Brothers dedicated themselves, from the very first, to the production of a car which should rise superior to all external conditions, and be, in effect, and in fact, a law unto itself.

They were supremely satisfied, to begin with, that good motor cars supplied a great and a permanent human need.

They were sure that no matter what happened, there would always be an inexhaustible market for the particular kind of a car they hoped and planned to build.

They were convinced that they could produce a car so sound in value, so saving, and so satisfactory to the individual owner, that no outside influence could shake its hold upon the public.

The simple facts, as they exist at this moment, are so inspiring

that we are prompted to share them with everyone who shares with Dodge Brothers their faith in sound business principles.

Dodge Brothers are more strongly and soundly entrenched in the good will of the public at this moment than ever in their history.

Every good result which John and Horace Dodge counted upon when they committed themselves to the principles of building good will by building good value, has come to pass.

Their certainty that people will always discover a meritorious product, set it apart, prefer it and reward it, is continuing to come true with each and every succeeding business day.

Dodge Brothers Motor Car is in demand because Dodge Brothers Motor Car meets a definite economic need and satisfies a human craving for honest and substantial value.

Its market will continue to grow and the production continue to increase to meet that market, as long as merit continues to be the determining factor in motor cars and in all other manufactured products.
